Assessment Guide: Unit Standard 19777 - Load and store stockings used in the mussel (kutai, kuku) farming industry

## Section 1: Information for Assessors

### Introduction

Assessment for this Unit standard must be carried out according to the policies and procedures described in the Seafood ITO Assessor Manual which is available from the Seafood ITO. Refer to the Seafood ITO Assessors Guide, “Steps to Good Practice Assessment”.

Your candidate may answer questions orally or in writing. Evidence provided for assessment must be consistent with company procedures and industry guidelines. Evidence provided for assessment must also cover any range statements specified. This assessment guide provides Assessors with an Evidence Collection Sheet in Section 2.

### Assessor Criteria

To assess this unit standard, assessors must:

- Hold unit standard 4098 – Use standards to assess candidate performance
- Hold unit standard 19777 – Load and store stockings used in the mussel (kutai, kuku) farming industry

### General Unit Standard Notes

- **Definition**  
*company requirements* refer to instructions to staff on policy and procedures that are communicated in verbal or written form. These requirements may include but are not limited to – manufacturers’ procedures, company safety procedures, codes of practice and standards, and legislative requirements.
- All work practices must meet documented company safety requirements. The documented company safety requirements must meet the obligations of the Health and Safety in Employment Act 1992 and subsequent amendments

### Element Range Statements

There are no element range statements for this unit standard.

### Entry Information

Open.
